THE Missing Birds

emaanzpeekaboo.org

One morning, Fizza and Ahmed realized there were fewer birds in their neighborhood. They researched and found out that deforestation was causing habitat loss.

They researched and found out that deforestation was causing habitat loss

They encouraged their community to plant more trees. Together with their parents and neighbors, they organized a tree-planting event, focusing on native species that provide food and shelter for birds

They also built bird feeders and birdhouses to support local species

They also built bird feeders and birdhouses to support local species

They recorded different bird species they spotted and shared their findings in a school project

Lesson

Habitat preservation is key to protecting wildlife
